May 20th & 21st in Gillette, WY

"Bringing maintenance professionals together since 1974"

The Rocky Mountain Master Mechanics Association (RMMMA) is dedicated to bringing maintenance professionals together to exchange ideas, share best practices, and build a strong support network. This collaboration helps members solve complex challenges while gaining access to valuable, hands-on training opportunities.

RMMMA hosts bi-annual meetings each May and December, featuring two specialized tracks tailored to mobile maintenance and plant maintenance professionals. The upcoming RMMMA meeting will be held May 20–21 at the Gillette College Technical Education Center in Gillette, Wyoming.

The event kicks off Wednesday morning with educational sessions provided by the Rocky Mountain Suppliers Group (RMSG), highlighting the latest advancements in mobile equipment and plant technology. Wednesday afternoon will feature hands-on training and live demonstrations. Attendees are also encouraged to join the Meet and Greet Reception with RMSG members from 4:00–6:00 PM.

On Thursday, participants will attend additional educational sessions, a mine tour, and hands-on training opportunities during the RMSG Mini-Expo. The event concludes Thursday evening with a cocktail hour at 6:00 PM, followed by the Awards Banquet at 7:00 PM honoring the 2026 Mobile Mechanic and Plant Mechanic of the Year.

RMMMA meetings are designed to ensure your maintenance program stays current with evolving equipment and technology while helping you avoid costly mistakes. Members benefit from real-world insights shared by peers who have faced—and solved—similar challenges. For example, a maintenance supervisor from a North Dakota mine shared how invaluable RMMMA was when his team introduced a new fleet of haul trucks. By learning directly from other members with hands-on experience, his team was able to quickly adapt and succeed.

Unlike traditional vendor-driven events, RMMMA provides direct access to end users who offer honest feedback—the good, the bad, and the ugly—helping you make more informed purchasing and operational decisions. RMMMA is especially valuable for key mechanics, maintenance supervisors, managers, and purchasing professionals. Beyond the meetings, members gain access to a trusted network of industry professionals who are readily available to share advice and solutions.

Participating in RMMMA adds measurable value to your operation. We look forward to seeing you in May, at the Gillette College Technical Center.

SUPPORTING THE ROCKY MOUNTAIN MASTER MECHANICS ASSOCIATION

The Rocky Mountain Suppliers Group (RMSG) is a nonprofit organization comprised of companies throughout the Rocky Mountain region that provide goods and services to the mining, energy, and construction industries. RMSG serves as the vendor affiliate of the Rocky Mountain Master Mechanics Association (RMMMA), a respected network of maintenance professionals that has been active since 1974. RMSG is also committed to supporting the next generation of skilled professionals by awarding three annual scholarships to students in the Rocky Mountain region who are pursuing careers in mining, energy, or construction through college or vocational programs. RMSG membership provides exclusive access to the bi-annual RMMMA meetings, where maintenance professionals from across the region seek the latest products/services, technologies, and solutions in the industry. The next RMSG/RMMMA meeting will take place May 20–21 at the Gillette College Technical Center in Gillette, Wyoming. Throughout Wednesday and Thursday, RMMMA members participate in full-day sessions that include presentations, hands-on training, and site tours led by RMSG members, focusing on both mobile equipment and processing plant technologies. RMSG members are invited to attend the members-only Meet and Greet Reception on Wednesday from 4:00–6:00 PM—an excellent opportunity to connect directly with maintenance professionals while showcasing products and services. On Thursday afternoon, companies can further engage attendees through hands-on training and live demonstrations at the RMSG Expo. The event concludes Thursday evening with an Awards Banquet hosted by RMSG, providing additional networking opportunities with leading maintenance professionals from across the Rocky Mountain region. Members may also enhance their visibility by sponsoring session breaks or lunches, creating valuable one-on-one engagement opportunities with RMMMA attendees. RMSG membership is open to any company supplying materials, equipment, or services to the mining, energy, or construction industries across the western United States. Beyond the tangible benefits, membership reflects your company’s commitment to supporting the industries and professionals that drive our nation’s infrastructure and economy. We look forward to seeing you in May!
